PROFESSIONAL SUMMARY

Information Technology graduate with 3+ years of experience in a technical engineering environment, supporting Computer-Aided Engineering (CAE) teams and working with international R&D teams in Japan and North America. Experienced in technical support, troubleshooting, data management, documentation, reporting, and Microsoft Office. Strong problem-solving and analytical skills, with experience handling technical tasks, supporting team members, and improving work processes. Seeking a technical customer support role where I can apply my IT knowledge, technical skills, and problem-solving abilities in a global technology company.
